

Render PRO Training

Technical documentation

HOW LONG THE TRAINING LASTS

1 day (6 hours)

WHERE IT IS HELD

stationary in Poznan or live **online**

WHAT YOU WILL LEARN

During the training you will learn how to create realistic visualizations and professional technical documentation. We know how important it is to practice, that's why at our training courses you will work and learn on a specific project, so you can easily apply the knowledge you gain in your work. At the end you will receive a named certificate, confirming the skills you have acquired.

ISSUES YOU WILL LEARN ABOUT

- material properties - discussion of settings
- adding custom textures
- light in a project - settings and properties: halogens, spotlight, sunlight, emissive surfaces, backlights
- Path tracing rendering - discussion of module functions
- scene framing
- using camera angles
- making a photorealistic visualization, saving images after Path tracing calculations
- discussion of the use of color tones
- taking a spherical picture
- making visualization with the use of depth of field
- making a record of visualization of several views simultaneously
- discussion of the function and how to save the project as an AVI movie
- discussing the documentation window
- generating documentation according to available templates
- discussing the functionality of individual pages
- editing documentation content, adding/subtracting pages
- copying content between pages
- adding layouts and sections to generated pages
- adding your own symbols
- dimensioning
- building a page - summary drawing
- saving documentation and exporting to PDF
